Module Description

Important - this module is a 10 ECTS combination of two separate 5 ECTS modules which are being phased out: PM04 Marketing and PM17 Sales

Knowledge Areas

Students who successfully pass this module are able to :

- Understand the essential concepts of marketing and sales, growth marketing and the customer lifecycle

- Understand consumer behavior as it relates to product marketing initiatives and marketing strategies for B2B and B2C sales processes

- Apply online marketing instruments, including search engine optimization (SEO), search engine advertising (SEA), social media marketing, and affiliate marketing, to create effective marketing campaigns

- Analyze key performance indicators (KPIs) to control the success of digital marketing campaigns, conduct A/B tests, and use statistical tools to ensure quality of results

- Create effective sales techniques to negotiate and close deals and managing sales funnels

- Create exceptional customer experiences, drive brand loyalty and enable viral growth

Learning Resources & Disclaimer

The scope of the subject matter of this single module is enormous. Learning units offered in relation to this module do not cover the full breadth of topics in this module. Students are expected to self-assess their knowledge and skills and augment their project experience and the input they take out of learning units with self-directed learning, e.g. utilizing the learning resources contained in these Google Classrooms:

- [PM23 Marketing and Sales](https://classroom.google.com/c/NjM5NDAzNjAwNTM4?cjc=lhe5mnr)

- [PM17 Sales Notion](https://www.notion.so/codeuniversity/Classroom-Product-Sales-Fall-2023-6d409db10f55468794da56c5450f0b14)

Change of Assessment Format for Reassessments

The default reassessment has to be conducted in exactly the same manner as the failed assessment, unless the module description permits a change of assessment format.

For this module, changes of formats for reassessment ARE possible. If you choose
